Mr. Buckley:

The Department has evaluated the product(s) listed below:

Table with 3 columns: Product, NHDOT Item No., *Status. Row 1: T308+, 563.A, Qualified

Status Notes

Qualified: Qualified products are subject to satisfactory performance in the field. Additional testing may be required on individual lots. The Department continues to evaluate products that have been qualified and reserves the right to withdraw qualification at any time for any reason without notice.

Rejections: Rejected products may be resubmitted only upon reformulation and/or evidence that the Departments acceptance criteria can be met. Reconsideration will be at the sole discretion of the Department.

Filed-No Action: No action is planned on this submittal because one or more of the following applies:

- Three empty checkboxes followed by text: The product does not fall into a category that is included on the Qualified Products List. The product does not appear to fill a current need of the Department. There is insufficient evidence/history of product success in similar applications.

Product submittal may be retained for future reference

Questions or comments regarding this evaluation may be directed to the Research Supervisor at the address listed below. Your interest and continued cooperation is appreciated.

Sincerely yours,
